

## **Mark N. Blatt, MD, MBA**

Director  
Global Healthcare Strategies, Digital Health Group  
Intel Corp.

Dr. Blatt joined Intel in the summer of 2000 working in the New Business Group. He is currently the Director for Healthcare Industry Solutions, in the Digital Health Group. Previously, from 2005-2006, he was the Director for Global Healthcare Strategies in the Digital Health Group. During this time he helped design Intel's Payor and Pharma strategy as well as worked with the team that brought Intel's' Mobile Clinical

Assistant computing platform to market. Prior to this Dr. Blatt served for 3 years as the Manager for Worldwide Healthcare Strategies, in the Sales and Marketing Group. During this time he played a key role in formulating Intel's Integrated Digital Hospital vision. This vision has gained significant momentum and mindshare with Intel's healthcare customers, fellow travelers, and industry thought leaders worldwide.

Dr. Blatt has also worked on a variety of health related Internet business efforts including a platform to deliver home-based medical care. Prior to joining Intel he was the managing partner of a five-provider group of family practitioners. He practiced family medicine for 15 years before returning to Yale University to earn his MBA (2000) in finance. Dr. Blatt earned his Medical Doctorate at Albany Medical College of Union University (1979). He completed a residency in Family Practice at the University of Connecticut (1982). He then served two years as a Commissioned Officer in the US Public Health Service before starting private practice. He is a member of the IEEE Medical Technology Policy Committee, the American Telemedicine Association, and a diplomat of the American Board of Family Practice.
